**DANUKUSUMAN NEIGHBORHOOD MAP**

**EDUCATION**

- **How can youth in areas where children are not in school be ensured an adequate education?**
- Out of 574 children, 25 are not in school. This is 5%, more than the Kecamatan average of 4%. Children out of school are concentrated in low-income areas of the Kelurahan.

**WATER**

- **PODAM (Public Distribution of Drinking Water) - 27%**
- **PRIVATE WELLS (Private Wells) - 44%**
- Danukusuman has higher PODAM access than the Kec., where the average is 20%. This is due to community efforts and government programs to address water issues. However, groundwater in the east and south is polluted by batik factories. This puts residents at risk.

**SANITATION**

- **PUBLIC versus PRIVATE WC**
- **Public = 34% Private = 63%**
- Access to private WC in Danukusuman is much higher than the Kec. average of 48%.

**HEALTH**

- **TOP 2 HEALTH ISSUES**
  1. Malnutrition
  2. Dengue in low-income areas
- **If health issues are related to poor sanitation in low-income areas, how can local government work with residents to comprehensively address these issues?**

**Housing**

- **Land titles are above the Kec. average of 86%.** High land tenure typically means the neighborhood is stable. There are still areas where residents have no land titles. These are migrant areas, where both housing density and poverty are high. Migrant is a unique situation in Solo where people live on royal land without tenure. People who live on migrant areas have high levels of housing insecurity.

**Economy / Poverty**

- **POVERTY RATE = 21%**
- Poverty is high compared to the Kec. rate, which is 19%.

**ASSETS**

- **50 – 61%**
- **48 – 63%**
- Assets such as furniture. These industries are assets because they provide employment close to residents’ homes.

**Social awareness and community spirit**

**Above average public services**

**Strong local leadership**

**What are potential issues?**

- **Ground water pollution**
- **Low public services in low-income areas**
- **Unemployment**

**What are Danukusuman’s assets?**

- Social awareness and community spirit
- Above average public services
- Strong local leadership

**What’s happening in Danukusuman?**

Historically Danukusuman was a royal garden on the outskirts of the city. Since then, batik factories have attracted migrants from other parts of Java. It is largely a residential neighborhood with strong community organization.

This Mini Atlas collects information about Danukusuman so everyone can see and understand what is going on. Information about the condition of services can help people discuss what they want from the annual participatory budgeting process, musrenbang. Our goal is to make citizens more informed about their communities.
