GANDEKAN ATLAS

What’s happening in Gandekan?

Gandekan is a centrally located neighborhood bordered on two sides by the Pepe River and a raised embankment. It is very close to Pasar Gede which is a major employment center. There are many home industries located there.

Gandekan’s Location in Solo

This Mini Atlas collects information about Gandekan so everyone can see and understand what is going on. Information about the condition of services can help people discuss what they want from the annual participatory budgeting process, musrenbang. Our goal is to make citizens more informed about their communities.

GANDEKAN PROFILE

Population = 6,025
- Households (HH) = 1,216
- Average HH size = 4.9

Public = 37%
Private = 49%
No Data = 14%

PUBLIC versus PRIVATE WC

Land tenure is lower than the Kecamatan average of 77%. Tenure is high along the riverbank and the western areas of the Kelurahan, but is very low along the barrier in the east. Low land tenure is a problem since it means that families are more vulnerable to eviction.

POP. by Age

60+
50 – 59
40 – 49
30 – 39
20 – 29
10 – 19
0 – 9
0 – 6%
6 – 15%
15 – 100%

Is the quality of ground-water a priority since there is a high reliance on wells?

POVERTY RATE = 23%

Public = 37%
Private = 49%

POVERTY RATE vs. HH WITH LAND TITLE

What are Gandekan’s assets?

- Close to city center, markets, and employment opportunities
- Active home industries
- Low absenteeism rate, good education

What are potential issues?

- Seasonal flooding causes health issues and economic problems
- Low levels of public services
- Poor access due to physical boundaries

OUT OF SCHOOL

5% of children

% AGE 7 – 18 NOT IN SCHOOL

0 – 6%
6 – 15%
15 – 100%

What are potential issues?

- Riverbank Housing along the Pepe River
- Annual flooding is a serious problem, it puts residents and their property at risk. Many households are located near the river and this can increase their vulnerability.
