KAUMAN ATLAS

What’s happening in Kauman?
Kauman is historically one of Solo’s centers for batik production. It is very centrally located alongside the Kasunanan Palace and Pasar Klewer market. The large Masjid Agung is located there. It is a popular destination for batik buyers.

This Mini Atlas collects information about Kauman so everyone can see and understand what is going on. Information about the condition of services can help people discuss what they want from the annual participatory budgeting process, musrenbang. Our goal is to make citizens more informed about their communities.

KAUMAN FAMILIES PROFILE
Population = 3,484
Households (HH) = 739
Average HH size = 4.7

Land tenure is higher than the Kecamatan average of 68%. Land tenure is very high in the west of the Kelurahan, yet near the mosque and market the land tenure is much lower. This is positive since high land tenure means greater stability.
