KEPATIHAN KULON ATLAS

What are Kepatihan’s assets?

- Strategically located near markets
- Neighborhood stability
- Religious diversity

What are potential issues?

- Pockets of poverty with low services
- Lack of health services
- Drainage issues during rainy season

EDUCATION

 Only 4% of children of school-going age are not attending school. This is below the Kec. average of 6%. High absenteeism is concentrated in a small area located in the western part of the neighborhood.

WATER

Public and private well use is above the Kec. average of 15% and 25%. Access to PDAM is close to the Kec. average of 50%. Good water reduces health risks.

SANITATION

The use of public toilets is above the Kec. average of 17%. These facilities are concentrated along the river and behind many of the commercial buildings.

HOUSING

Land tenure is 90%, which is much higher than the Kec. average of 77%. There are only small areas where land tenure is low. This means the neighborhood is stable. This is an asset for the community.

ECONOMY / POVERTY

Poverty rate = 15%

Poverty is the same as the Kec. average of 15%.

Health

Do residents want better access to healthcare? The residents of Kepatihan Kulon face many health problems related to air and water pollution. There is a concern that the community is not receiving adequate healthcare attention.

COMMON HEALTH PROBLEMS

1. Diarrhea
2. Typhus
3. ISPA

What can the government do to help support the area of high poverty in Kepatihan Kulon?
