**What’s happening in Manahan?**

Manahan is located in the heart of Solo, which makes it a convenient place to live and work. It is home to the Manahan Stadium, one of the five largest sport complexes in Indonesia. Manahan is also an education center, with schools at a range of grade levels.

This Mini Atlas collects information about Manahan so everyone can see and understand what is going on. Information about the conditions of services can help people discuss what they want from the annual participatory budgeting process, masyarakat. Our goal is to make citizens more informed about their communities.

**What are Kelurahan assets?**

- Public spaces and facilities
- Center for education
- Good PUSKESMAS facility

**What potential issues?**

- Pollution and odor related to the bird market
- Poor drainage on eastern edge
- Vulnerable community with low land tenure along train tracks

**Economy / Poverty**

Manahan offers many economic opportunities. The city has recently relocated and improved the space for cart vendors. Manahan is known as a center for education in Solo, with institutions ranging from elementary to high schools. These institutions attract students from outside the city. Absenteeism is low at 3% compared to the Kec. average of 5%.

**Public versus Private WC**

Rates of public and private WC use are roughly equivalent to the Kec. averages. Even so, it is important to make sure that Manahan has adequate public WC service for the people who rely on it.

**Sanitation**

PDAM use is equal to the Kec. average of 32%. Private well use is 63%, above the Kec. average of 47%. People use private wells because Manahan has high quality ground water.

**Common Health Problems**

1. Influenza
2. Dengue

Pollution and odor related to the bird market may become a potential source of health issues.

**Population**

13,295 People

Number of Households (HH) = 2,788

Average HH size = 4.75
