What’s happening in Nusukan?

Nusukan is the third largest Kelurahan. Located in north-central Solo, it is a planned area that began developing in the 1960s. Nusukan is characterized by many schools and universities, a busy market, and a bus station.

This Mini Atlas collects information about Nusukan so everyone can see and understand what is going on. Information about the condition of services can help people discuss what they want from the annual participatory budgeting process, musrenbang. Our goal is to make citizens more informed about their communities.

Nusukan’s Location in Solo

Out of school

4% of children

Land tenure is much higher in Nusukan than the Kec. average of 71%. Tenure is high in the western planned area of Nusukan and around the schools in the southeast. Tenure around the bus station and along the river in the south is much lower. High land tenure is an asset since it brings stability to the Kelurahan.

Use of both public and private wells are below the Kec. averages of 10% and 52%. Public well use is highest in the areas of concentrated poverty and along the river in the south. The high levels of private sanitation in the north-west and central areas and by the university area are an asset for the Kel. Private sanitation reduces health risks.

Common health problems may be related to the condition of air and water. Poor drainage leads to mosquito-borne disease. Factory pollution lowers air quality, which increases ISPA.

The high levels of private sanitation in the north-west and central areas and by the university area are an asset for the Kel. Private sanitation reduces health risks.

What are Kelurahan assets?

Connections to both central Solo and rural areas

Affordable vegetable market

Educational institutions

What are potential issues?
